May 16, 2019

The Honorable Tyisha Walker-Myers  
President, Board of Alders  
City of New Haven  
165 Church Street  
New Haven, CT 06510

Re: Determination of No Amendment Required to Yale New Haven Hospital Medical Area Overall Parking Plan

Dear President Walker-Myers and Honorable Members of the Board of Alders:

Yale New Haven Hospital ("YNHH") hereby requests that the Board make a determination and adopt the necessary resolutions by unanimous consent at its May 20, 2019 meeting certifying that the following three applications do not require an amendment to the Medical Area Overall Parking Plan ("MAOPP"):

1. 150 Sargent Drive: proposed interior renovations to the existing YNHH building to effect the relocation of the Cornell-Scott Hill Health Center and the Fair Haven Community Health Center to the site and the transfer of the YNHH primary care services to these Community Health Centers under the purview of the CT Office of Health Strategy. Medical use was established under the 1970 Land Disposition Agreement between New Haven and Community Healthcare Center Plan, Inc. for the construction of a community health center and related facilities. Minor exterior renovations include flood proofing, the installation of an exterior insulation and finishing system, and the regrading and restriping of the parking area. This work requires site plan and coastal site plan approval from the City Plan Commission ("City Plan")

2. 175 Sherman Avenue: proposed upgrades to the interior of the building to provide expanded physician office space and improve access into the building from the parking field on the building’s north entrance and with the addition of an accessible ramp, new stairs, and a canopy on the Sherman Avenue façade. This work requires site plan approval from City Plan.

3. 501 George Street: proposed relocation of the daycare currently located on the Saint Raphael’s campus to 501 George Street. This relocation will require approval of a special exception from the Board of Zoning Appeals ("BZA") and site plan approval from City Plan for the daycare use (collectively "Daycare Relocation Applications").
150 Sargent Drive

YNHH seeks site plan approval and coastal site plan pursuant to § 64(f) of the New Haven Zoning Ordinance ("Ordinance"). The proposed project involves complete interior renovation of both floors of the existing Healthcare Clinic building located at 150 Sargent Dr. The first floor (29,227 square feet) will be completely renovated for space to serve Radiology, Blood Draw, and Federally Qualified Health Center (FQHC) clinics for Pediatrics and Women’s Health. The second floor (22,847 square feet) will be completely renovated for space to serve Women, Infants, and Children (WIC), office space for the Women’s Health FQHC, and clinic space for Internal Medicine FQHC. The existing use per the 1970 Land Disposition Agreement is a community health center, and no change in use will occur as part of this project.

The building mechanical, electrical, plumbing, fire alarm, and fire protection systems will be completely upgraded to comply with applicable building codes and support the new spaces. New roof top air handlers will be located on the lower roofs to serve the first floor of the building. A new air handler will be located within the second floor mechanical room to serve the second floor space. A new emergency generator and electrical transformer will be installed on an elevated concrete pad at the northeast corner of the building. New building mounted exterior light fixtures will also be installed as part of the proposed project.

The exterior envelope of the existing building will be upgraded to provide greater thermal and energy efficiency. Improvements to the exterior walls will include new air/vapor barrier membrane, thermally broken window and door systems, and an exterior insulation and finish system installed over the existing concrete block walls. Improvements to the roof will include new rigid roof insulation, coverboard, fully adhered roof membrane, and metal roof edge.

The existing building will be dry flood proofed to comply with the New Haven Flood Damage Prevention Ordinance and applicable building codes. A fluid-applied waterproofing membrane will be installed to provide dry-flood proofing to the building at an elevation of 13.86’. Pedestrian flood barrier doors with automatic closers will be installed at all single and double exterior door locations. The main entrance vestibule floor will be raised to an elevation of 12.00’, and a stackable flood barrier provided at this larger width opening. The existing stair towers will be wet flood proofed as per the Building Code, with insulated flood vents provided. The emergency generator and electrical transformer concrete pad will be installed at the required design flood elevation of 12.00’.

YNHH and the Yale School of Medicine are subject to the MAOPP. However, as set forth on the Parking Inventory Map in the MAOPP, the Medical Area does not extend eastward to Sargent Drive. The Inventory Area extends from Sherman Ave to the west to Union Ave to the east. Parking has never been identified to the east of Union Ave. All parking for the building will be provided onsite in full compliance with IL zone requirements. YNHH is not relying on the MAOPP for parking compliance, nor are we eliminating any spaces that are part of the MAOPP.
The Honorable Tyisha Walker-Myers  
President, Board of Alders  
Page 3

175 Sherman Avenue

YNHH seeks site plan approval pursuant to § 64(f) of the Ordinance for exterior and interior modifications of the existing building and parking field located at 175 Sherman Avenue (the “175 Property”) at the northwest corner of Sherman Avenue and Chapel Street.

The Property consists of 0.74 acre and is improved with the former Plymouth Congregational Church, which dates to the late 1800s. In 1983, the building was adaptively repurposed for medical office use, which continues into the present as a cardiac, occupational, and orthopedic rehabilitation facility. A majority of the Property, including the building and approximately one-third of the parking field, is located in a Residence-Office (RO) zone, and the balance of the parking field is located in an RM-2 zone. Pursuant to § 17(b)(2), doctors’ and other professionals’ offices are permitted in the RO zone as-of-right.

While the existing rehabilitation uses will remain, YNHH proposes a substantial upgrade to the interior of the building to provide better and more convenient patient care, including expanded space for a total of ten physicians, plus an additional 2,083 square feet of office space. In addition, for the safety and convenience of its patients, YNHH proposes to improve access into the building both directly from Sherman Avenue on the building’s west entrance with the addition of an accessible ramp, new stairs, and a canopy, and also from the parking field on the building’s north entrance. Copies of the relevant site development materials are included in this letter.

The staff that will occupy the building upon its completion currently either work at the current facility or on the Saint Raphael campus across Chapel Street, and thus no increase in the total number of staff is proposed. The relocation of these staff currently working on the Saint Raphael campus will facilitate the proposed development of the Neuroscience Center.

Section 17(b)(2)(5) of the Ordinance provides that the required parking is three parking spaces per practitioner in the case of doctors and one parking space for each 600 square feet of net floor area used or intended to be used for offices in all other cases. As a result, a total of 33 spaces are required and 39 are provided. Nevertheless, all physicians and staff that work within the facility are employed by YNHH and will continue to park on the Saint Raphael campus as they do today.

Because all required parking is provided on the 175 Property, there will be no impact on parking availability or parking options.

501 George Street

YNHH currently operates a child daycare center at 1450 Chapel Street, located within the Saint Raphael campus located at the northeast corner of Sherman Avenue and George Street. In order to accommodate the proposed Neuroscience Center, the daycare must be relocated from its current location prior to the start of any construction activities on the campus. YNHH proposes to relocate the center to the existing building located at 501 George Street (the “501 Property”),
which is approximately 1,800 feet to the east of the existing center. The Property is located within an RM-2 zone, in which child daycare centers are permitted subject to special exception approval from the BZA. Copies of the relevant site development materials are included in this letter.

Section 13(b)(3)(3) of the New Haven Zoning Ordinance provides that the required parking for child daycare centers is “one (1) passenger drop-off/pick-up loading space for each 24 children or fraction thereof” plus one (1) space for each three (3) employees. As a result, the George Street center is required to provide three (3) drop-off/pick-up loading spaces plus eight (8) parking spaces for staff. YNHH proposes a total of seven (7) parking spaces on the Property, all of which shall be reserved exclusively for drop-off/pick-up.

It is anticipated the George Street daycare center will accommodate approximately 60 children, with a staff of approximately 23. Because the daycare center operates from 6:30 AM until 5:30 PM, the staff operates on shifts such that all staff members are never working at the center at any one time. All daycare center staff members are employed by YNHH and those staff who drive to work currently park on the St. Raphael campus within the McGivney Lot located at 671 George Street.

Upon the relocation of the center to 501 George Street, daycare staff will continue to park at the McGivney lot. The McGivney lot contains 62 parking spaces, for which no permits are issued. As a result, there are 62 available spaces for the eight (8) required staff parking spaces. This is consistent with the MAOPP which provides that centralized parking recognizes “the inefficiency and lack of feasibility of providing separate parking at each individual building in a developed urban setting such as New Haven, the fluidity of a walkable and bicycle friendly campus environment, and the provision of transportation options by participating institutions.”

If the Daycare Relocation Applications are approved, there will be no impact on parking availability or parking options. The center will exceed the number of required on-site parking spaces for drop-off/pick-up and employees will continue to park at the McGivney lot.

Therefore, for the foregoing reasons, YNHH requests that the Board make a determination that there are no changes or amendments required to the MAOPP as a result of these three applications and issue a resolution by unanimous consent on First Communication certifying that an amendment to the MAOPP is not required in connection. A draft resolution for each respective property is enclosed.

Sincerely,

[Signature]

Stephen J. Carbery

RESOLUTION OF THE BOARD OF ALDERS CERTIFYING THAT NO AMENDMENT TO THE YALE NEW HAVEN HOSPITAL / YALE UNIVERSITY SCHOOL OF MEDICINE MEDICAL AREA OVERALL PARKING PLAN IS REQUIRED FOR THE APPLICATION FOR SITE PLAN AND COASTAL SITE PLAN REVIEW PERTAINING TO 150 SARGENT DRIVE

WHEREAS, by communication dated May 16, 2019 from Stephen J. Carbery, Vice President of Facilities, Design & Construction and Real Estate, Yale New Haven Hospital (“YNHH”) has requested the Board make a determination and adopt a resolution by unanimous consent certifying that an amendment to the Medical Area Overall Parking Plan (“MAOPP”) is not required for the Application for Development Permit/Site Plan and Coastal Site Plan review submitted to the City Plan Commission on or about April 17, 2019 for the 150 Sargent Drive Property (the “Application”);

WHEREAS, in order to effect the relocation of the Cornell-Scott Hill Health Center and the Fair Haven Community Health Center to the Property and the transfer of the YNHH primary care services to these Community Health Centers under the purview of the CT Office of Health Strategy, YNHH seeks to renovate the interior of the building and complete minor exterior renovations, which include flood proofing, the installation of an exterior insulation and finishing system, and the regrading and restriping of the parking area.

WHEREAS, the entire building will remain dedicated to community healthcare.

WHEREAS, the 150 Sargent Drive Property has sufficient parking onsite to meet the requirements of the New Haven Zoning Ordinance without reliance on the MAOPP;

NOW THEREFORE, BE IT RESOLVED, that the request of YNHH is approved and the Board of Alders hereby determines and certifies that there are no changes required to the MAOPP as a result of the modifications to the 150 Sargent Drive Property as set forth in the Application.
APPLICATION TO BOARD OF ZONING APPEALS FOR A SPECIAL EXCEPTION

I. LOCATION of Property:

501 George Street

St. George St. north east

St. Dwight Ave. and St. Day St. south west

St. corner of George St. and Dwight St. Ave.

II. Name of OWNER: Yale New Haven Hospital, Inc.

Address: 20 York Street, New Haven, CT

Date of Purchase: 9/29/2017

Also, required:
- Proof of ownership
- Proof of agency
- Proof of some other right to property

Name of APPLICANT:

Name and signature: "SEDALE E. CARBERY"

Address: 189 N. Broad St., Milford, CT 06460

Telephone No.: 203-877-8000

III. THE SPECIAL EXCEPTION (S) sought involve (s):

[ ] Use of property. Proposed Use: Child daycare center
[ ] Other matters (describe precisely): _______

IV. SECTION (S) of zoning ordinance giving Board of Zoning Appeals authority to grant the requested special exception (s):

TABLE 1 CHILD DAYCARE CENTER, Section 14(b)(1) and Section 13(b)(3)(d)

V. Paragraph 63(D) (does) (does not) require referral of this case to the City Plan Commission after Board hearing.

VI. LOT Dimensions (width x depth): 150' x 100'

LOT Area: 15,000 SF

List all EXISTING BUILDING (S) AND USE (S) on this lot, giving symbol for legal basis of each. (PR-permitted as right; PS-permitted by special exception; PV-previous variance; NCU-nonconforming use existing at effective date of ordinance or amendment; CAL-previous certificate of approval of location - motor vehicle uses):

(1) Former Ronald McDonald House - site is currently vacant

(2)

(3)

VII. SUMMARY of reasons asserted for the granting of this special exception, including any relevant discussion of subsection 63(D) of the zoning ordinance and the section (s) cited in question IV above, and listing of any proposed conditions and safeguards (attach additional sheet if needed):

XIV. [ ] Hearing Fee to be paid upon filing of this Application
[ ] Special Exception
[ ] Special Exception (PDU)

[ ] Required plans filed with Appeal as follows:

(a) 10 copies of a scaled PLOT PLAN, with a North arrow, showing the lot in question and the following if applicable:
1. existing buildings,
2. proposed construction and use of outdoor areas,
3. existing and proposed curb cuts, driveways, and parking and loading facilities,
4. existing and proposed fences, walls, landscaping and signs,
5. such other information as may be required to define the exact nature of the Special Exception requested:

(b) 10 copies of scaled FLOOR PLANS and ELEVATIONS:
for each floor and each side of proposed construction, including use of all floor areas.

XV.
Communication with regard to this Appeal received from:
[ ] City Plan Dept
[ ] Health Dept.
[ ] Bureau of Engineering
[ ] Dept of Traffic & Parking
[ ] Police Dept.
[ ] LCI - Livable City Initiative
[ ] Fire Dept.

XVI. Previous Board of Zoning Appeals cases at this location (file number, year, proposed construction and/or Board decision, and court decision where applicable).
NEW HAVEN BOARD OF ZONING APPEALS

NOTICE is hereby given that State Law requires the Board of Zoning (BZA) to hold a public hearing to review your application and/or appeal. The BZA will make its decision based upon testimony at the public hearing and the documents you submit with your application.

TO BE CONSIDERED COMPLETE, your application MUST include the documents and required information listed below.

If you fail to submit the REQUIRED DOCUMENTS AND INFORMATION to describe the zoning relief requested, YOUR APPLICATION AND/OR APPEAL MAY BE DENIED.

REQUIRED MATERIALS

1. **SIGNED AND NOTARIZED ORIGINAL APPLICATION/APPEAL FORM**
   - Answer all questions completely and include a clear, detailed description of your zoning relief proposal.
   - **SUBMITTED**
     - YES
     - NO

2. **SCALED SITE PLAN**
   - Ten (10) copies of Scaled Plans representing the zoning relief sought
   - (A MINIMUM SCALE OF 1 INCH = 20 FEET IS STRONGLY RECOMMENDED)
   - **SUBMITTED**
     - YES
     - NO

   **SCALED SITE PLAN** with North arrow showing the lot in question and if any:
   - Existing buildings;
   - Proposed construction and use of indoor and outdoor areas;
   - Existing and proposed curb cuts, driveways, parking and loading facilities;
   - Existing and proposed fences, walls, landscaping and signs;

   If you are seeking yard variances within five (5) feet of a property line or a lot split a Class A-2 Survey may be required.

3. **FLOOR PLANS AND ELEVATIONS**
   - Ten (10) copies of the following if applicable
   - SCALED FLOOR PLAN of each floor including use of all floor area.
   - SCALED ELEVATIONS for each side, if new construction is proposed.
   - A MINIMUM SCALE OF 1/8 INCH = 1 FOOT IS STRONGLY RECOMMENDED

   For any change in zoning use classification under the state building code (BOCA), or for any construction costing more than $25,000, an Architect or Engineer must prepare your plans on a Class A-2 Survey base.

4. **OTHER INFORMATION**, as necessary to clearly define the nature of the zoning relief or Special Exception sought such as:
   - Days and hours of operation
   - Number of Employees
   - Provisions for Employee Parking
   - Signs

   **NOTE:** Required Materials are to be submitted as follows:
   - The Original Application form and
   - ALL copies of plans and other materials sorted, folded and stapled in sets (ten total).

   **SUBMITTED**
   - YES
   - NO

   **ONCE FILED, FILING FEES(S) FOR YOUR APPLICATION/APPEAL ARE NOT REFUNDABLE**

I HAVE READ THIS NOTICE AND UNDERSTAND THAT MY APPLICATION AND/OR APPEAL MAY BE DENIED IF THE MATERIALS REQUIRED TO BE SUBMITTED ARE NOT COMPLETE.

**BY:**

Signature of Applicant

John W. Knuff, Agent

Date: ________________

Telephone Number: ________________
YNHH currently operates a child daycare center within the building located at the northeast corner of Sherman Avenue and George Street within the St. Raphael campus with an address of 1450 Chapel Street. YNHH proposes to relocate the child daycare center to the existing building located at 501 George Street (the “Property”), which is approximately 1,800 feet to the east of the existing center. The Property is located within an RM-2 zone, and child daycare centers are permitted in the RM-2 zone subject to special exception approval from the Board of Zoning Appeals.

It is anticipated the George Street daycare center will accommodate approximately 60 children, with a staff of approximately 23. Because the daycare center operates from 6:30 AM until 5:30 PM, the staff operates on shifts such that all staff members are never working at the center at any one time.

Section 13(b)(3) of the New Haven Zoning Ordinance provides that the required parking for child daycare centers is “one (1) passenger drop-off/pick-up loading space for each 24 children or fraction thereof” plus one (1) space for each three (3) employees. As a result, the George Street center is required to provide three (3) drop-off/pick-up loading spaces plus eight (8) parking spaces for staff. The Application proposes a total of seven parking spaces on the 501 George Street property, all of which shall be reserved exclusively for drop-off/pick-up.

All daycare center staff members are employed by YNHH and those staff who drive to work currently park on the St. Raphael campus within the McGivney Lot located at 671 George Street. Upon the relocation of the center to 501 George Street, staff will be required to continue to park at the McGivney lot.

The McGivney lot is included within the 2018 Medical Area Overall Parking Plan (“MAOPP”), which plan is submitted to and approved each year by the New Haven Board of Alders. The McGivney lot contains 62 parking spaces, for which no permits are issued. As a result, there are 62 available spaces for the eight (8) required staff
parking spaces. This is consistent with the MAOPP which provides that centralized parking recognizes "the inefficiency and lack of feasibility of providing separate parking at each individual building in a developed urban setting such as New Haven, the fluidity of a walkable and bicycle friendly campus environment, and the provision of transportation options by participating institutions."

It is respectfully suggested, therefore, that more than sufficient parking is provided for staff to the daycare center use at the Property such that the Applicant is not required to obtain any form of parking relief.

17. CONTRACTOR TO COMPLY WITH THE REQUIREMENTS FOR EROSION AND SEDIMENT CONTROL. SEE SHEET C-201.
SITE LAYOUT PLAN NOTES

1. UTILITY, STRUCTURE AND FACILITY LOCATIONS SHOWN HEREON WERE PLOTTED FROM INFORMATION SUPPLIED BY RESPECTIVE UTILITY COMPANIES AND DATA OBTAINED FROM FIELD SURVEYS AND AS-BUILT DRAWINGS. THE ACCURACY AND COMPLETENESS OF SUBSURFACE INFORMATION SHOWN ON THESE DRAWINGS IS NOT GUARANTEED. THE CONTRACTOR MUST DETERMINE FOR HIMSELF, THE LOCATIONS AND ELEVATIONS OF ALL UTILITIES WHICH MAY AFFECT HIS CONSTRUCTION OPERATIONS. THE CONTRACTOR MUST ADEQUATELY PROTECT AND SUPPORT UTILITIES AND HE SHALL BE RESPONSIBLE FOR ALL DAMAGE INCURRED AT NO EXPENSE TO THE OWNER. ANYONE USING UTILITY INFORMATION AND DATA PROVIDED HEREIN SHALL CONTACT “CALL BEFORE YOU DIG”, 1-800-922-4455 OR WWW.CBYD.COM, 72 HOURS IN ADVANCE TO VERIFY THE LOCATION OF UTILITIES PRIOR TO STARTING CONSTRUCTION.

2. REFERENCE IS MADE TO PLAN ENTITLED “EXISTING CONDITIONS MAP FOR RONALD MCDONALD HOUSE OF NEW HAVEN 501 GEORGE STREET NEW HAVEN, CT” PREPARED BY KRATZERT JONES & ASSOCIATES, INC., DATED JULY 13, 2016.

3. THE CONTRACTOR IS TO USE CAUTION WHEN WORKING NEAR OVERHEAD AND UNDERGROUND UTILITIES OR STRUCTURES ARE NOT DAMAGED. IT SHALL BE THE CONTRACTOR’S SOLE RESPONSIBILITY FOR ANY DAMAGED INCURRED DURING EXCAVATION OPERATIONS. ALL EXCAVATION SHALL BE IN CONFORMANCE WITH THE LATEST OSHA REQUIREMENTS.

4. EXCAVATION OF ANY TYPE SHALL BE ACCOMPLISHED IN SUCH A MANNER THAT UNDERGROUND UTILITIES OR STRUCTURES ARE NOT DAMAGED. IT SHALL BE THE CONTRACTOR’S SOLE RESPONSIBILITY FOR ANY DAMAGED INCURRED DURING EXCAVATION OPERATIONS. ALL EXCAVATION SHALL BE IN CONFORMANCE WITH THE LATEST OSHA REQUIREMENTS.

5. THE STANDARD SPECIFICATIONS (FOR SITE /CIVIL WORK) SHALL BE THE STATE OF CONNECTICUT, DEPARTMENT OF TRANSPORTATION, STANDARD SPECIFICATIONS FOR ROADS, BRIDGES, AND INCIDENTAL CONSTRUCTION, FORM 817, 2016, INCLUDING ALL SUPPLEMENTS THERETO. FORM 817 IS AVAILABLE FOR VIEWING ON THE CTDOT WEBSITE WWW.CT.GOV.DOT/SITE UNDER THE “PUBLICATIONS” TAB.

6. ANY AREAS DISTURBED BY CONSTRUCTION ACTIVITIES AND IS NOT PROVIDED WITH A SPECIFIC SITE IMPROVEMENT (PAVING, SIDEWALK, LANDSCAPING, ETC.) SHALL HAVE A 4" TOPSOIL AND TURF ESTABLISHMENT IN ACCORDANCE WITH THE PROJECT SPECIFICATIONS.

7. THE GENERAL CONTRACTOR SHALL RETAIN A PROFESSIONAL ENGINEER OR LAND SURVEYOR REGISTERED BY THE STATE OF CONNECTICUT TO LAY OUT THE BUILDINGS, UNDERGROUND CONSTRUCTION, PROPERTY LINE, ELEVATIONS, AT NO ADDITIONAL COST TO THE OWNER. ANYONE USING UTILITY INFORMATION AND DATA PROVIDED HEREIN SHALL CONTACT “CALL BEFORE YOU DIG”, 1-800-922-4455 OR WWW.CBYD.COM, 72 HOURS IN ADVANCE TO VERIFY THE LOCATION OF UTILITIES PRIOR TO STARTING CONSTRUCTION.

8. THE LOCATIONS OF ITEMS NOT DIMENSIONED ON THE DRAWINGS SHALL BE FIELD STAKED BY THE CONTRACTOR AND THEIR LOCATIONS APPROVED BY THE OWNER'S REPRESENTATIVES PRIOR TO INSTALLATION.

10. REFER TO PROJECT ARCHITECTURAL PLANS FOR ADDITIONAL INFORMATION.
SITE MATERIALS AND PLANTING PLAN

1. UTILITY, STRUCTURE AND FACILITY LOCATIONS SHOWN HEREON WERE PLOTTED FROM INFORMATION SUPPLIED BY RESPECTIVE UTILITY COMPANIES AND DATA OBTAINED FROM FIELD SURVEYS AND AS-BUILT DRAWINGS. THE ACCURACY AND COMPLETENESS OF SUBSURFACE INFORMATION SHOWN ON THESE DRAWINGS IS NOT GUARANTEED. THE CONSTRUCTION CONTRACTOR SHALL DETERMINE FOR HIMSELF, THE LOCATIONS AND ELEVATIONS OF ALL UTILITIES WHICH MAY AFFECT HIS CONSTRUCTION OPERATIONS. THE CONTRACTOR MUST ADEQUATELY PROTECT AND SUPPORT UTILITIES AND HE SHALL BE RESPONSIBLE FOR ALL DAMAGE INCURRED AT NO EXPENSE TO THE OWNER. ANYONE USING UTILITY INFORMATION AND DATA PROVIDED HEREIN SHALL CONTACT "CALL BEFORE YOU DIG", 1-800-922-4455 OR WWW.CBYD.COM, 72 HOURS IN ADVANCE TO VERIFY THE LOCATION OF UTILITIES PRIOR TO STARTING CONSTRUCTION.

2. REFERENCE IS MADE TO PLAN ENTITLED "EXISTING CONDITIONS MAP FOR RONALD MCDONALD HOUSE OF NEW HAVEN 501 GEORGE STREET NEW HAVEN, CT" PREPARED BY KRATZERT JONES & ASSOCIATES, INC., DATED JULY 13, 2016.

3. THE CONTRACTOR IS TO USE CAUTION WHEN WORKING NEAR OVERHEAD AND UNDERGROUND UTILITIES.

4. EXCAVATION OF ANY TYPE SHALL BE ACCOMPLISHED IN SUCH A MANNER THAT UNDERGROUND UTILITIES OR STRUCTURES ARE NOT DAMAGED. IT SHALL BE THE CONTRACTOR'S SOLE RESPONSIBILITY FOR ANY DAMAGES INCURRED DURING EXCAVATION OPERATIONS. ALL EXCAVATION SHALL BE IN CONFORMANCE WITH THE LATEST OSHA REQUIREMENTS.

5. THE GENERAL CONTRACTOR SHALL RETAIN A PROFESSIONAL ENGINEER OR LAND SURVEYOR REGISTERED BY THE STATE OF CONNECTICUT TO LAY OUT THE BUILDINGS, UNDERGROUND UTILITY LINES, AND OTHER SITE WORK FROM THE HORIZONTAL AND VERTICAL CONTROL INFORMATION FURNISHED BY THE OWNER AND TO ESTABLISH AND RECORD NECESSARY ELEVATIONS, AT NO ADDITIONAL COST TO THE OWNER.

6. ALL UTILITY BOXES, FRAMES, AND GRATES, ETC. AFFECTED BY THE CONSTRUCTION ACTIVITIES SHALL BE RESET/RECONSTRUCTED TO THE PROPER GRADE. ALL COST RELATED TO SUCH WORK SHALL BE CONSIDERED INCLUDED IN THE BID PRICE.

7. MAKE SMOOTH TRANSITIONS BETWEEN ALL SLOPE CHANGES AND FEATHER EDGES OF ALL CUTS AND FILLS TO BLEND WITH EXISTING CONDITIONS.

Re.: Development Permit Application
Property Owner/Applicant: Yale-New Haven Hospital Inc.
Property: 175 Sherman Avenue

Gentlemen:

On behalf of the Applicant and Property Owner, I am pleased to submit the enclosed Development Permit Application. Enclosed are the following materials:

- Four copies of Application for Development Permit, including the Worksheet, Site and SESC forms;
- Four copies of a project narrative;
- Four sets of site plans including survey prepared by Tighe & Bond;
- Four copies of stormwater report;
- Four sets of floor plans and elevations prepared by Joseph Sepot Architect;
- Four sets of construction logistic plans; and
- Application fee of $360.00.

It would be appreciated if this matter would be placed on the City Plan Commission’s May 15, 2019 agenda. Thank you for your consideration of the enclosed. Please let me know if you have any questions.

Very truly yours,

JW KnuFF

Enc.

Application for Development Permit: Site Plan Review

A NARRATIVE IS REQUIRED

NARRATIVE: A description of the proposed project in sufficient detail to determine that it complies with the New Haven Zoning Ordinance and State of Connecticut Soil Erosion and Sediment Control Standards. (Attach NARRATIVE or include it on the submitted SITE PLAN).

1. State the purpose and intended use of the project. Yale New Haven Health is proposing to renovate the existing building and site at 175 Sherman Avenue for use of new medical offices; See attached narrative also.

2. Describe the structure(s) and construction activities. See Narrative

3. State the construction Start and End Dates/Provide a Construction Staging Plan/If phased provide Time Estimates for Each Phase. Anticipated start date is Summer, 2019 and anticipated completion date is Fall, 2019

4. List any Federal or State Permits required and their status. Furnish copy of permits issued or applications filed.

5. Provide Board of Zoning Appeals Decision Letter(s) if zoning relief has been secured. Plan must be in compliance with the New Haven Zoning Ordinance to receive Site Plan approval.

SITE PLAN SUBMISSION REFER TO "SITE PLAN GUIDELINES" AT CITYOFNEWHAVEN.COM

SURVEY

1. □ A-2 Survey of property boundary, right-of-way, street, building and/or setback lines, easement lines.
2. □ A-2 Survey not required. Staff has determined this project is: □ Exempt □ Unregulated □ Minor Application. N/A
3. □ Show Coastal Management District Boundary, Flood Zones, wetlands, watercourses, (soil types if pertinent). N/A

SITE PLAN DATA Please use the checklist below and SESC REGULATIONS as a guide to provide required data.

4. □ SITE PLAN [1" = 20' or larger is preferred] with north arrow, scale, date prepared, and name of preparer.
5. □ General Location Map at a scale of 1 inch = 600 feet, with North Arrow.
6. □ Buildings and improvements on abutting parcels within 50 feet of the property lines
7. □ Names of abutting Property Owners.
8. □ Driveways, aprons, sidewalks, curbs, walkways, parking layout, loading facilities, and utilities.
9. □ Provide applicable standard City details.
10. □ Existing and proposed topographical contours where slope is LESS THAN 15%, show at 2 FOOT intervals.
11. □ Existing and proposed topographical contours where slope is 15% OR MORE, show at 5 FOOT intervals. N/A
12. □ Proposed site alterations including cleared, excavated, filled or graded areas.
13. □ Existing trees with diameters of 8 inches or greater, and changes proposed, including protection measures.
14. □ Edge of wooded areas. N/A
15. □ Proposed landscaping keyed to a plant list. Include size and planting detail.
16. □ Sanitary sewage disposal, water supply lines, other utilities on or serving the site.
17. □ Proposed building plans and elevations.
18. □ New property lines & improvements: signs, fences, walls, dumpsters, outdoor storage area, lighting.

ENGINEERING DATA. Please provide the following data using the checklist as a guide.

19. □ Storm Drainage details including roof leaders.
20. □ Existing and proposed grades and construction materials.
21. □ Support Data and Drainage Calculations to show adequacy of pipe sizes, flow, slope, invert and top of grate connections [Not required because: □ Exempt □ Unregulated □ Minor Application].
Application for Development Permit: Soil Erosion and Sediment Control Review

Please fill out DATA, WORKSHEET, and SITE SECTIONS in addition to the following items:

SITE PLAN

On a Scaled Site Plan prepared by a Connecticut Registered Architect, Landscape Architect, Civil Engineer, or Licensed Soil Scientist, show the following:

- Construction details for proposed SESC measures and storm water management facilities in accord with standard city details.
- Location and design details for all proposed SESC measures and storm water management facilities over the period of construction.

SOIL EROSION AND SEDIMENT CONTROL DATA

Print or type information in space provided, or check appropriate box below if information is not filled in on this form.

- Shown on SITE PLAN, or
- Described in SEPARATE ATTACHMENT.

1. Describe proposed Soil Erosion & Sediment Control Measures.

The proposed project soil erosion and sediment control measures meet the requirements outlined in the 2002 Connecticut Guidelines for Soil Erosion and Sediment Control and the City of New Haven regulation and standard details. The project incorporates all fence and baffle barriers along the perimeter of the site, construction areas, intense protection at all catch basins, a temporary sediment trap to support excavation operations. In addition, the contractor is required to maintain the erosion and sedimentation control measures throughout construction until the site is stabilized. All trucks leaving the site are required to be covered and all adjacent roadways kept clean by sweeping before forecasted storms or weekly as required. All erosion control measures will be inspected weekly and after every rainfall event.

2. Schedule of Grading and Construction activities. Include start and stop dates and duration of activity.

- Anticipated Start Date: Summer 2019
- Anticipated completion date: Fall 2020

3. Describe the Sequence for Final Stabilization of the site.

The final site stabilization begins once all the minor grading utilities have been installed and the site is prepared for final surface treatments. Gravel base course for drives, parking areas, walks, drain and any other areas of disturbance are prepared for the grading. Process aggregate base course is installed at all drive-aways, parking and drive off areas. Fine grade and install pavement and grading for sloped areas, install plantings, lawn and seed to establish turf.

4. Outline the Operations and Daily Maintenance Program.

- The Contractor will be required to check and clean all silt fence throughout the site on an ongoing basis. Silt fence will be kept clean to allow for the flow of storm water into the structure. The Contractor will maintain all fence and baffle barriers and remove accumulated sediments. Adjacent City roadways will be swept to mitigate soils that have been tracked off-site.

5. Contingency Provisions. Describe your procedures if unforeseen erosion or sedimentation problems arise.

- The Contractor shall maintain a supply of silt fence, hay bales, anti-tracking pads, crushed stone and silt bags on-site for emergency operations. The New Haven Health, the individual responsible for monitoring the SESC Control Measures, the On-Site Monitor of SESC Control Measure Installation and Maintenance will be contacted to determine the best course of action to be taken to address any issues.

6. Individual Responsible for Monitoring SESC Control Measures

License #: 203-497-1762

License #: 203-497-1762
I. Introduction

The Applicant, Yale New Haven Hospital, Inc. ("YNHH") seeks site plan approval pursuant to § 64 (f) of the New Haven Zoning Ordinance for exterior and interior modifications of the existing building and parking field located at 175 Sherman Avenue (the "Property") at the northwest corner of Sherman Avenue and Chapel Street.

II. Existing Conditions

The Property consists of 0.73 acre and is improved with the former Plymouth Congregational Church, which dates to the late 1800s. In 1983, the building was adaptively repurposed for medical office use, which continues into the present as a cardiac, occupational, and orthopedic rehabilitation facility.

A majority of the Property, including the building and approximately one-third of the parking field, is located in a Residence-Office (RO) zone, and the balance of the parking field is located in an RM-2 zone. Pursuant to § 17(b)(2), doctors' and other professionals' offices are permitted in the RO zone as-of-right.

A portion of the parking field is located within the front yard setback along Sherman Avenue and is an existing non-conformity. As discussed below, a portion of the parking area within the front yard setback will be removed, thus reducing this non-conformity.

III. Purpose and Intended Use

While the existing rehabilitation uses will remain, YNHH proposes a substantial upgrade to the interior of the building to provide better and more convenient patient
care, including space for a total of ten physicians, plus an additional 2,708 square feet of other office space.

In addition, for the safety and convenience of its patients, YNHH proposes to improve access into the building both directly from Sherman Avenue on the building’s west entrance with the addition of an accessible ramp, new stairs, and a canopy, and also from the parking field on the building’s north entrance. Last, a reconfiguration of the parking field is proposed to create a one-way, counter-clockwise flow which will necessitate a new curb cut on Sherman Ave. This will enable the removal of both a portion of the parking within the front yard setback and impervious coverage.

All physicians and staff that work within the facility are employed by YNHH and will park on the St. Raphael campus, which is included within the 2018 Medical Area Overall Parking Plan (“MAOPP”), which plan is submitted to and approved each year by the New Haven Board of Alders.

The proposed project complies with all applicable provisions of the New Haven Zoning Ordinance and the State SESC standards. Details are provided on the plan set and stormwater management report, both prepared by Tighe & Bond.

In particular, a calculation setting forth compliance with the Reflective Heat standards is included on Sheet C-102 of the plan set. Out of a total of 7,942 square feet of all site non-roof hardscape, 74% or 5,828 square feet will be constructed using a material with a solar reflective index of at least 29, well in excess of the required 50%.

IV. Structures and Construction Activities

As noted above, construction activities will consist primarily of work within the interior of the existing building, and no new structures are proposed.

Site work activities include removal and replacement of the parking area and access drives, walkways, landscaping, building entrances; improvements to the storm drainage system including catch basins, manholes, water quality and infiltration structures, roof drainage connections and associated storm system piping; separating
the existing combined sewer service to the combined sewer main in Sherman Avenue to separate storm and sanitary connections from the building to the existing main, as well as replacing the existing underground electric service with a new transformer and new underground electric service.

V. Construction Start/End Dates; Construction Staging Plan

Construction is estimated to commence on or about Summer, 2019, and be complete on or about Fall, 2020. Due to the very limited nature of the work, no phasing is proposed. A Logistics Plan is included in the plan set.

VI. Federal or State Permits Required

The proposed work does not require the approval of the New Haven Historic District Commission or the Connecticut State Historic Preservation Office.
Application for Development Permit

CHECK BOX WHERE APPROPRIATE. PRINT OR TYPE INFORMATION IN SPACE PROVIDED.

1. Project Address(es)

☐ Check Here if Fee Exempt. THIS BOX IS FOR CITY USE ONLY
☐ As-of Right  File #  Fee Paid  Date [yy-mm-dd]
☐ Zoning Relief  #  $  / /  /
☐ Development Permit  #  $  / /  /

......This includes ☐ Site Plan Review  ☐ CSPR  ☐ SESC  ☐ IW
☐ Flood Development Permit  #  $  / /  /
☐ Performance Bond  #  $  / /  /
☐ Building Permit  #  $  / /  /

2. Property Owner Information & Consent

Name Yale - New Haven Hospital, Inc
C/o Stephen J. Carbery
Street Address 789 Howard Avenue, Suite TE106
City New Haven  State  CT  ZIP 06519

Daytime Phone: 203-688-3055
✓ Business  ☐ Home  ☐ Answering Service
☐ Fax:  ☐ Cell:
✓ E-Mail: Stephen.Carbery@ynhh.org

As OWNER OF THE PROPERTY I hereby authorize this development permit application, and:
1. I consent to necessary and proper inspections of the above property by agents of the City at a reasonable time after an application is made, and
2. I certify that I am familiar with all of the information provided in this application, and
3. I am aware that any permit obtained through deception, inaccurate or misleading information is subject to revocation and penalties, and
4. I certify that this project conforms to zoning or has applied for or been granted zoning relief.

Dated: April 17, 2019

Signature of PROPERTY OWNER [Signature]

3. Applicant Information & Certification

☐ Check here if SAME AS OWNER (Fill in only if not same as Owner.)

Name
Firm
Street Address
City  State  ZIP

Application for Development Permit

1. Calculate LOT AREA as defined by the New Haven Zoning Ordinance excluding the following categories:
   - Wetlands and Watercourses as defined in Sections 22a-38 15&16) C.G.S. and appearing on New Haven County USDA Soil Conservation Service Soil Survey.
   - State-designated Tidal Wetlands defined and mapped under Sections 22a-29(a)(2) and 22a-30 C.G.S.
   - Any parcel area below the Mean High Water Mark.

   **LOT AREA CALCULATION WORKSHEET**
   **ZONING LOT AREA = TAX PARCEL AREA MINUS STEP 1 TOTAL**
   **STEP 1** Add Items A. through C. below: **STEP 2** Subtract STEP 1 TOTAL from Tax Parcel Area:
   - A. Tidal Wetlands: 0 SF
   - B. Area below Mean High Water Mark: 0 SF
   - C. Inland Wetlands & Watercourses: 0 SF
   **= STEP 1 TOTAL: 0 SF**
   **ZONING LOT AREA: 168,142 SF**

2. ZONING TABLE (Fill in below or include on submission drawing cover sheet.)

   **RESIDENTIAL PROJECTS**
   **ZONING DISTRICT:** Not Applicable = ☐
   **1. ZONING LOT AREA [Calculate Above]**
   **Proposed [or Allowed by BZA]**
   - Sq. Ft.
   - Units
   - Sq. Ft./DU
   - Sq. Ft.
   - Feet
   - Feet
   - Feet
   - Feet
   - Feet
   - Feet
   - Feet
   - #Spaces

   **COMMERCIAL OR INDUSTRIAL PROJECTS**
   **ZONING DISTRICT:** Not Applicable = ☐
   **TOTAL FLOOR AREA (ALL FLOORS):**
   - 168,142 Sq. Ft.
   - 505,731 Sq. Ft.
   **FLOOR AREA RATIO (FAR = B/A):**
   - 3.0 FAR
   - 0.32 FAR
   **IMPERVIOUS SURFACE:**
   - 85.5 %
   - 83.1 %
   **PARKING:**
   - 3/1000 (156)
   - 255 #Spaces
   - 1 Spaces

3. MATERIAL (SOIL, ROCK OR FILL) TO BE MOVED, REMOVED OR ADDED
   **CALCULATE MATERIAL TO BE MOVED, REMOVED OR ADDED** (Calculate below - Enter sizes in feet).
   **LENGTH x WIDTH x DEPTH = CUBE FEET ÷ 27 = CUBE YARDS**
   **No** ☐ Yes
   **MATERIAL TO BE MOVED:** 200 x 90 x 0.5 = 9000 ÷ 27 = 333
   **MATERIAL TO BE ADDED:**
   **MATERIAL TO REMOVED:** 58 x 20 x 4 = 4,640 ÷ 27 = 171
   **TOTAL MATERIAL TO BE MOVED, REMOVED OR ADDED = 504**
   **REGRADING OF SITE**
   ✔ No ☐ Yes
   **Are more than 800 cubic yards soil, rock or fill to be MOVED, REMOVED OR ADDED?**
   ✔ No ☐ Yes
   **Is more than 30% of the lot area proposed to be REGRADED by more than 2 feet? (do following calculation).**
   **REGRADED AREA IN SQUARE FEET + TOTAL LOT AREA IN SQUARE FEET = PERCENT**
   [Area to be re-graded by more than 2 feet divided by Total Lot Area equals Percentage of Lot to be re-graded]
Application for Development Permit: Site Plan Review

A NARRATIVE IS REQUIRED

NARRATIVE: A description of the proposed project in sufficient detail to determine that it complies with the New Haven Zoning Ordinance and State of Connecticut Soil Erosion and Sediment Control Standards. (Attach NARRATIVE or include it on the submitted SITE PLAN).

1. State the purpose and intended use of the project.
   Refer to attached project narrative prepared by E4H

2. Describe the structure(s) and construction activities.
   Start: Spring 2019
   End: Summer 2020

3. State the construction Start and End Dates/Provide a Construction Staging Plan/If phased provide Time Estimates for Each Phase.
   Start: 2019
   End: 2020

4. List any Federal or State Permits required and their status. Furnish copy of permits issued or applications filed.
   CHECK □HERE IF NONE □

5. Provide Board of Zoning Appeals Decision Letter(s) if zoning relief has been secured. Plan must be in compliance with the New Haven Zoning Ordinance to receive Site Plan approval.
   SITE PLAN SUBMISSION REFER TO "SITE PLAN GUIDELINES" AT CITYOFNEWHAVEN.COM

SURVEY
1. ✓ A-2 Survey of property boundary, right-of-way, street, building and/or setback lines, easement lines.
2. □ A-2 Survey not required. Staff has determined this project is: □ Exempt □ Unregulated □ Minor Application.
3. ✓ Show Coastal Management District Boundary, Flood Zones, wetlands, watercourses, (soil types if pertinent).

SITE PLAN DATA Please use the checklist below and SESC REGULATIONS as a guide to provide required data.
4. ✓ SITE PLAN [1" = 20' or larger is preferred] with north arrow, scale, date prepared, and name of preparer.
5. ✓ General Location Map at a scale of 1 inch = 600 feet, with North Arrow.
6. ✓ Buildings and improvements on abutting parcels within 50 feet of the property lines
7. ✓ Names of abutting Property Owners.
8. ✓ Driveways, aprons, sidewalks, curbs, walkways, parking layout, loading facilities, and utilities.
9. ✓ Provide applicable standard City details.
10. ✓ Existing and proposed topographical contours where slope is LESS THAN 15%, show at 2 FOOT intervals.
11. □ Existing and proposed topographical contours where slope is 15% OR MORE, show at 5 FOOT intervals.
12. ✓ Proposed site alterations including cleared, excavated, filled or graded areas.
13. ✓ Existing trees with diameters of 8 inches or greater, and changes proposed, including protection measures.
14. ✓ Edge of wooded areas
15. ✓ Proposed landscaping keyed to a plant list. Include size and planting detail.
16. ✓ Sanitary sewage disposal, water supply lines, other utilities on or serving the site.
17. ✓ Proposed building plans and elevations.
18. ✓ New property lines & improvements: signs, fences, walls, dumpsters, outdoor storage area, lighting.

ENGINEERING DATA Please provide the following data using the checklist as a guide.
19. ✓ Storm Drainage details including roof leaders.
20. ✓ Existing and proposed grades and construction materials.
21. ✓ Support Data and Drainage Calculations to show adequacy of pipe sizes, flow, slope, invert and top of grate connections [Not required because: □ Exempt □ Unregulated □ Minor Application].
Application for Development Permit: Soil Erosion and Sediment Control Review

Please fill out DATA, WORKSHEET, and SITE SECTIONS in addition to the following items:

SITE PLAN
On a Scaled Site Plan prepared by a Connecticut Registered Architect, Landscape Architect, Civil Engineer, or Licensed Soil Scientist, show the following:
- Construction details for proposed SESC measures and storm water management facilities in accord with standard city details.
- Location and design details for all proposed SESC measures and storm water management facilities over the period of construction.

SOIL EROSION AND SEDIMENT CONTROL DATA
Print or type information in space provided, or Check ☐ appropriate box below if information is not filled in on this form.
- Shown on SITE PLAN, or
- Described in SEPARATE ATTACHMENT.

1. Describe proposed Soil Erosion & Sediment Control Measures.
   Refer to included erosion control plans and Engineering report.

2. Schedule of Grading and Construction activities. Include start and stop dates and duration of activity.
   Start of Construction: Spring 2019
   Completion: Summer 2020

3. Describe the Sequence for Final Stabilization of the site.
   Refer to included erosion control plans and Engineering report.

4. Outline the Operations and Daily Maintenance Program.
   Refer to Engineering report.

5. Contingency Provisions. Describe your procedures if unforeseen erosion or sedimentation problems arise.
   Refer to Engineering report.

6. Individual Responsible for Monitoring SESC Control Measures

1. General Information.

If this project is within the Coastal Management District, please furnish material required in the SITE section of the application forms and the following additional information:

A. ✔ General Project Area Map locating Coastal Resources on or adjacent to the site, as defined in §22a-93(7), C.G.S.
B. ✔ List the type and extent of vegetation, animal habitats and plant types at or adjacent to the site.

Please refer to the attached project narrative.

C. □ Yes ☑ No Does this project affect the view to or from this site of coastal resources?
D. ✔ Yes ☑ No Is this Parcel in a Flood Zone? If yes, fill in the Flood Zone AE___ and Community-Panel Number 09009C0441J (IF YES, A FLOOD DEVELOPMENT PERMIT WILL BE REQUIRED AS PART OF THE BUILDING PERMIT APPLICATION).
E. ✔ Yes ☑ No Is this a previously developed urban site REMOTE from the waterfront?

2. Coastal Resources Impact. Review lists below, check each item which is on or adjacent to the site.

For CSPR Goals and Policies, See Connecticut General Statutes §22a-92, C.G.S.

For EACH BOX CHECKED YES above, ATTACH THE FOLLOWING INFORMATION:

- Describe the character and condition of EACH coastal resource or other feature checked above.
- Identify and describe potential adverse or beneficial impacts of the project on the condition, character and value of EACH resource checked above.
- Describe any measures to mitigate adverse impacts described.
- Identify any conflicts between the proposed activity and any goal or policy in the §22a-92, C.G.S. (CCMA).
- After installation of reasonable measures:
  a. Describe any remaining adverse impacts.
  b. Explain why the impacts were not mitigated.
  c. State why the Commission should find the impacts acceptable.
  d. Explain how the proposed project is consistent with coastal goals and policies in §22a-92, C.G.S. (CCMA).
READ THE STATEMENT BELOW AND THEN ANSWER THE FOLLOWING QUESTIONS.

WATER DEPENDENT USES are defined in Chapter 444, §22a-93 of the Connecticut General Statutes as:
Those uses and facilities which require direct access to, or location in, marine or tidal waters and which therefore cannot be located inland, including, but not limited to: marinas, recreational and commercial fishing and boating facilities, finfish and shellfish processing plants, waterfront dock and port facilities, shipyards and boatbuilding facilities, water-based recreational uses, navigation aids, basins and channels, industrial uses dependent upon waterborne transportation or requiring large volumes of cooling or process water which cannot reasonably be located or operated at an inland site and uses which provide general public access to marine or tidal waters.

1. □ □ Are the proposed use or uses water dependent as defined above?
2. □ □ Is the site located on a navigable water body?
3. □ □ Will the project preclude development of water dependent uses as defined above on or adjacent to this site in the future? IF YES, DESCRIBE.
4. □ □ Have efforts been made to preserve opportunities for future water dependent development? IF YES, DESCRIBE.
5. □ □ Is public access provided to the adjacent waterbody or watercourse? IF NO, DESCRIBE WHY NOT.
6. □ □ Does this project include a shoreline flood and erosion control structure (i.e. breakwater, bulkhead, groin, jetty, revetment, riprap, seawall, placement of barriers to the flow of flood waters or movement of sediment along the shoreline)? IF YES, DESCRIBE.
7. □ □ Does this project include work below the Coastal Jurisdiction Line (i.e. location of topographical elevation of the highest predictable tide from 1983 to 2001)? New Haven CJL elevation is 4.6' (referenced to NAVD88). IF YES, DESCRIBE.
The proposed project for Yale New Haven Health involves complete interior renovation of both floors of the existing Healthcare Clinic building located at 150 Sargent Dr in New Haven, CT. The first floor (29,227 square feet) will be completely renovated for space to serve Radiology, Blood Draw, and Federally Qualified Health Center (FQHC) clinics for Pediatrics and Women’s Health. The second floor (22,847 square feet) will be completely renovated for space to serve Women, Infants, and Children (WIC), office space for the Women’s Health FQHC, and clinic space for the Internal Medicine FQHC. The existing use per the Zoning Ordinance is a Healthcare Clinic, and the proposed use remains a Healthcare Clinic. Thus, no change in use will occur as part of this project.

The building Mechanical, Electrical, Plumbing, Fire Alarm, and Fire Protection systems will be completely upgraded to comply with applicable building codes and support the new spaces. New roof top air handlers will be located on the lower roofs to serve the first floor of the building. A new air handler will be located within the second floor mechanical room to serve the second floor space. A new emergency generator and electrical transformer will be installed on an elevated concrete pad at the northwest corner of the building. New building mounted exterior light fixtures will also be installed as part of the proposed project, as shown on the included Exterior Elevation drawings.

The exterior envelope of the existing building will be upgraded to provide greater thermal and energy efficiency. Improvements to the exterior walls will include new air/vapor barrier membrane, thermally broken window and door systems, and an exterior insulation and finish system (EIFS) installed over the existing concrete block walls. Improvements to the roof will include new rigid roof insulation, coverboard, fully adhered EPDM roof membrane, and metal roof edge.

The existing building will be dry-floodproofed to comply with the New Haven Flood Damage Prevention Ordinance and applicable building codes. As noted in the attached FEMA Elevation Certificate, the Base Flood Elevation is 11.00' (NAVD 88) and the minimum required elevation for dry-floodproofing is 12.00'. A fluid-applied waterproofing membrane will be installed as shown on the included plan to provide dry-floodproofing to the building at an elevation of 13.86' (2 feet above first floor elevation). Pedestrian flood barrier doors with automatic closers will be installed at all single and double exterior door locations. The main entrance vestibule floor will be raised to an elevation of 12.00', and a stackable flood barrier provided at this larger width opening. The existing stair towers will be wet floodproofed as permitted by the building code, with insulated flood vents provided in locations as shown on the included plan. The emergency generator and electrical transformer concrete pad will be installed at the required design flood elevation of 12.00'.

The existing parking lot will be reclaimed and repaved with a new 3” topping. Parking spaces will be re-striped to provide 250 total spaces, 21 single accessible spaces, and 5 van accessible spaces. New concrete sidewalk, site lighting, landscaped islands, and catch basin inserts will be provided as shown on the included Civil drawings.

   Daytime Phone: 
   As Applicant/Agent for the ☐ Property Owner ☐ Developer, the undersigned is familiar with all of the information provided in this application and is aware that any permit obtained through deception, inaccurate or misleading information is subject to revocation and penalties.
   Dated: 12/30/96
   Signature of ☐ Applicant ☐ Agent
The section in this box shall be filled in with the application for a Building Permit.

**CERTIFICATION OF ELEVATION FOR BUILDING PERMIT APPLICATION**

NGVD = National Geodetic Vertical Datum of 1929.

I hereby certify that this application meets the criteria of §5.3.1. of the New Haven Flood Damage Prevention Ordinance:

- The lowest floor including basement of the above referenced structure will be constructed at 12.9 Feet NGVD.
- Elevation to which any structure will be floodproofed, in relation to mean sea level is 13.04 Feet NGVD.
- The net effect of development will cause no more than one (1) foot rise in the water surface of the base flood elevation.
- The development will have no adverse effect on the floodplain.

NOTE 12.9 FT NGVD 29 = 11.86 FT NAVD 88

13.04 FT NGVD 29 = 12.00 FT NAVD 88

EXISTING ELEVATOR PIT INSIDE BUILDING HAS A FLOOR 4 FT BELOW THAN LISTED LOWEST FLOOR. THIS IS UNINHABITED SPACE.
Purpose of the Elevation Certificate

The Elevation Certificate is an important administrative tool of the National Flood Insurance Program (NFIP). It is to be used to provide elevation information necessary to ensure compliance with community floodplain management ordinances, to determine the proper insurance premium rate, and to support a request for a Letter of Map Amendment (LOMA) or Letter of Map Revision based on fill (LOMR-F).

The Elevation Certificate is required in order to properly rate Post-FIRM buildings, which are buildings constructed after publication of the Flood Insurance Rate Map (FIRM), located in flood insurance Zones A1-A30, AE, AH, A (with BFE), VE, V1-V30, V (with BFE), AR, ARA, AR/AE, AR/A1-A30, AR/AH, and AR/IO. The Elevation Certificate is not required for Pre-FIRM buildings unless the building is being rated under the optional Post-FIRM flood insurance rules.

As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt floodplain management regulations that specify minimum requirements for reducing flood losses. One such requirement is for the community to obtain the elevation of the lowest floor (including basement) of all new and substantially improved buildings, and maintain a record of such information. The Elevation Certificate provides a way for a community to document compliance with the community's floodplain management ordinance.

Use of this certificate does not provide a waiver of the flood insurance purchase requirement. Only a LOMA or LOMR-F from the Federal Emergency Management Agency (FEMA) can amend the FIRM and remove the Federal mandate for a lending institution to require the purchase of flood insurance. However, the lending institution has the option of requiring flood insurance even if a LOMA/LOMR-F has been issued by FEMA. The Elevation Certificate may be used to support a LOMA or LOMR-F request. Lowest floor and lowest adjacent grade elevations certified by a surveyor or engineer will be required if the certificate is used to support a LOMA or LOMR-F request. A LOMA or LOMR-F request must be submitted with either a completed FEMA MT-EZ or MT-1 package, whichever is appropriate.

This certificate is used only to certify building elevations. A separate certificate is required for floodproofing. Under the NFIP, non-residential buildings can be floodproofed up to or above the Base Flood Elevation (BFE). A floodproofed building is a building that has been designed and constructed to be watertight (substantially impermeable to floodwaters) below the BFE. Floodproofing of residential buildings is not permitted under the NFIP unless FEMA has granted the community an exception for residential floodproofed basements. The community must adopt standards for design and construction of floodproofed basements before FEMA will grant a basement exception. For both floodproofed non-residential buildings and residential floodproofed basements in communities that have been granted an exception by FEMA, a floodproofing certificate is required.

National Flood Insurance Program

ELEVATION CERTIFICATE
Important: Follow the instructions on pages 1-9.

Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

SECTION A — PROPERTY INFORMATION

C1. Building elevations are based on: ☐ Construction Drawings* ☐ Building Under Construction* ☑ Finished Construction
* A new Elevation Certificate will be required when construction of the building is complete.

Complete items C2.a—h below according to the building diagram specified in item A7. In Puerto Rico only, enter meters.

Benchmark Utilized: CITY BM NGVD29 CONVERT-88 Vertical Datum: NAVD 88

Datum used for building elevations must be the same as that used for the BFE.

a) Top of bottom floor (including basement, crawlspace, or enclosure floor) 7.86 x feet □ meters
b) Top of the next higher floor 11.86 x feet □ meters
c) Bottom of the lowest horizontal structural member (V Zones only) N/A x feet □ meters
d) Attached garage (top of slab) N/A x feet □ meters
e) Lowest elevation of machinery or equipment servicing the building (Describe type of equipment and location in Comments) 7.86 x feet □ meters
f) Lowest adjacent (finished) grade next to building (LAG) 7.80 x feet □ meters
g) Highest adjacent (finished) grade next to building (HAG) 11.35 x feet □ meters
h) Lowest adjacent grade at lowest elevation of deck or stairs, including structural support 8.80 x feet □ meters

SECTION D — SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information. I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

Were latitude and longitude in Section A provided by a licensed land surveyor? ☑ Yes ☐ No

Certifier’s Name
JAMES SAKONCHICK

License Number
CT 11302

Company Name
KRATZERT JONES & ASSOCIATES, INC

Address
1755 MERIDEN-WATERBURY ROAD LAFAYETTE SQUARE UNIT 3, PO BOX 337

City
MILLDALE

State
Connecticut

ZIP Code
06108

Signature Date Telephone Ext.
10-10-2018 (860) 621-3638

Comments (including type of equipment and location, per C2(e), if applicable)
Source of Latitude & Longitude: Google Earth;
Source of elevations were city redevelopment maps using NGVD 29 with conversion to NAVD 88 using website listed on FIRM map.
Elevations rough checked using Equipment used to Establish Elevation: GPS (Pro Mark-500) dual frequency receiver; Carlson Software;
Real Time Kinematic (RTK) averaging with a Network Subscription (Superior) with plus or minus 0.15 ft accuracy.
THE PRIMARY BUILDING HAS A MAIN FLOOR ELEVATION OF 11.86. TWO STAIRWAYS EXIT AT ELEV. 8.8 WITH HEATER AT ELEV. 9.5. THERE ARE TWO ELEVATOR PITS AT ELEVATION 7.86 WITH INCIDENTAL EQUIPMENT. THE PRIMARY ELEVATOR EQUIPMENT AND MOTORS ARE ABOVE ELEVATION 11.86. ALL ELEVATIONS AT NAVD 88.
